

AI Screening Report

Generated: 2026-07-09T05:03:18.164Z

Provider: mock

Candidate: Shubham Sharma

Job: Full-Stack Developer (Web & Mobile)

Fit Score: 59%

Summary

candidate matches 13 of 22 mandatory skills identified in the JD (59% keyword-fit score). partial alignment, recommend a screening call to confirm depth on missing areas before scheduling a technical round.

Mandatory Skill Checklist

- ☒ node.js
- ☒ node
- ☒ express
- ☐ nest.js
- ☒ react
- ☐ react.js
- ☐ next.js
- ☒ postgresql
- ☒ postgres
- ☒ mongodb
- ☒ mongo
- ☒ aws
- ☒ s3
- ☒ ec2
- ☐ cloudfront
- ☒ docker
- ☒ rbac
- ☐ cron
- ☐ openai
- ☐ groq
- ☐ pdfkit
- ☐ exceljs

Gap Analysis

- nest.js: resume does not mention "nest.js" explicitly - verify in interview or via a short take-home task before ruling the candidate out
- react.js: resume does not mention "react.js" explicitly - verify in interview or via a short take-home task before ruling the candidate out
- next.js: resume does not mention "next.js" explicitly - verify in interview or via a short take-home task before ruling the candidate out
- cloudfront: resume does not mention "cloudfront" explicitly - verify in interview or via a short take-home task before ruling the candidate out
- cron: resume does not mention "cron" explicitly - verify in interview or via a short take-home task before ruling the candidate out
- openai: resume does not mention "openai" explicitly - verify in interview or via a short take-home task

before ruling the candidate out

- groq: resume does not mention "groq" explicitly - verify in interview or via a short take-home task before ruling the candidate out

- pdfkit: resume does not mention "pdfkit" explicitly - verify in interview or via a short take-home task before ruling the candidate out

- exceljs: resume does not mention "exceljs" explicitly - verify in interview or via a short take-home task before ruling the candidate out

Suggested Task Assignment

suggest a focused take-home covering: nest.js, react.js, next.js to validate the gaps found above.
